Hello Vita,

How are you? What are you doing this New Year's Eve? Marita and I have decided to hold a party at home this year and we'd love it if you could come. We're planning a small party with our old school friends, so you'll know all of the guests. There'll be lots to eat and drink.

We've decided to have a Balinese themed party, with lots of spicy food. You'll probably be coming by train, won't you? Just give us a ring from the station and I'll pick you up. As the party will be quite late, you'll need to stay the night. Don't worry, there's plenty of room for everybody. Well, I really hope you can make it. It seems like ages since we last saw each other. Please let me know as soon as possible.

Lots of love,
Bagus

Why does Bagus send the letter?

Dear Mr. Weiss,

I am writing to introduce myself and to express my interest in the opening for an accountant that I saw on Kelsy & Alten website today.

My resume describes my education and experience in accounting in detail. But briefly, I got my bachelor's degree in accounting three years ago, and since then I have been working at a small accounting firm.

I like my present job, but the opportunity to work in auditing for Kelsy & Alten would allow me to be more involved in that area. I've done some auditing at my present job, and it is what I enjoy the most.

Thank you for taking time to read my resume. At the end of this week, I will be in touch with you to answer any questions you may have about my qualifications for the position and to ask for an appointment to meet with you.

Sincerely yours,

Read the text and answer the following question.

Mass Rapid Transit (MRT) is a type of high-capacity public transport in urban areas. It is provided on designated lines between stations which typically use multiple electric units on rail tracks.

The stations have high platforms without steps inside the trains so that there is almost no gap between the train and the platform. The platform screen doors are designed to protect the passengers from falling off the train. They also function to prevent the train from being late because of safety issues.

MRT is usually integrated with other public transportation to transport large numbers of people quickly. This ability is expected to help reduce the traffic congestion which is typical urban problem.

From the text above, we can infer that ...

Select one:

- The platform screen doors help the train move faster
- MRT is able to transport quite a lot of people
- The integrated station enables us to move quickly
- MRT can easily be found anywhere.

Jakarta (ANTARA) - President Joko Widodo has pressed for support for vaccine development in Indonesia in a bid to speed up the availability of vaccines as the COVID-19 pandemic ploughs on.

"Currently, the vaccines being developed in the country, include the Red and White

vaccine and the Nusantara (Archipelago) Vaccine, which we need to continuously support," the head of state emphasized in Jakarta, Friday.

Widodo highlighted the significance of research and development in the areas of medications and vaccines to attain pharmaceutical independence in the wake of the ongoing pandemic.

"We must also accelerate the availability of vaccines amid the COVID-19 pandemic," he stressed.

The president underscored the importance of innovation as the key to the development of countries, including Indonesia, which necessitated promoting and supporting all innovations.

The Ministry of Research and Technology and Ministry of Health had earlier inked a memorandum of understanding (MoU) for cooperation on developing Indonesia's indigenous Red and White vaccine on March 4.

Research and Technology Minister and head of the National Research and Innovation Agency (BRIN) Bambang P. S. Brodjonegoro remarked that the MoUs were a form of collaboration for supporting the acceleration of the Red and White vaccine's development to help the nation achieve vaccine self-sufficiency.

Indonesia has commenced its vaccination campaign with the administration of China's Sinovac COVID-19 vaccine. The country also recently received over 1.1 million doses of AstraZeneca shots under the multilateral COVAX initiative.

The Ministry of Research and Technology and Ministry of Health had earlier inked a memorandum of understanding (MoU) for cooperation on developing Indonesia's indigenous Red and White vaccine on March 4.

Research and Technology Minister and head of the National Research and Innovation Agency (BRIN) Bambang P. S. Brodjonegoro remarked that the MoUs were a form of collaboration for supporting the acceleration of the Red and White vaccine's development to help the nation achieve vaccine self-sufficiency.

Indonesia has commenced its vaccination campaign with the administration of China's Sinovac COVID-19 vaccine. The country also recently received over 1.1 million doses of AstraZeneca shots under the multilateral COVAX initiative.

Hi Sophie,

I'm writing this from the cutest little café in New York. I feel like I'm with friends! Mom's been making sure we don't miss one sight in the whole city, so we've been walking practically all day. So far, we've seen Times Square, Broadway, Central Park, and The Plaza. I caught a glimpse of the Statue of Liberty but we're going to go and see it properly tomorrow!

The streets are super busy here and everyone looks amazing in their winter coats and hats. I miss being able to feel my fingers! Hope you're enjoying your holidays. Miss you times a million, see you back in Adelaide on the 20th.

Love,
Ashley

Jakarta (ANTARA) - President Joko Widodo has pressed for support for vaccine development in Indonesia in a bid to speed up the availability of vaccines as the COVID-19 pandemic ploughs on.

"Currently, the vaccines being developed in the country, include the Red and White vaccine and the Nusantara (Archipelago) Vaccine, which we need to continuously support," the head of state emphasized in Jakarta, Friday.

Widodo highlighted the significance of research and development in the areas of medications and vaccines to attain pharmaceutical independence in the wake of the ongoing pandemic.

"We must also accelerate the availability of vaccines amid the COVID-19 pandemic," he stressed.

The president underscored the importance of innovation as the key to the development of countries, including Indonesia, which necessitated promoting and supporting all innovations.

The Ministry of Research and Technology and Ministry of Health had earlier inked a memorandum of understanding (MoU) for cooperation on developing Indonesia's indigenous Red and White vaccine on March 4.

Research and Technology Minister and head of the National Research and Innovation Agency (BRIN) Bambang P. S.
