Hello Vita,

How are you? What are you doing this New Year's Eve? Marita and I have decided to hold a party at home this year and we'd love it if you could come. We're planning a small party with our old school friends, so you'll know all of the guests. There'll be lots to eat and drink.

We've decided to have a Balinese themed party, with lots of spicy food. You'll probably be coming by train, won't you? Just give us a ring from the station and I'll pick you up. As the party will be quite late, you'll need to stay the night. Don't worry, there's plenty of room for everybody. Well, I really hope you can make it. It seems like ages since we last saw each other. Please let me know as soon as possible.

Dear Mr. Weiss,

I am writing to introduce myself and to express my interest in the opening for an accountant that I saw on Kelsy & Alten website today.

My resume describes my education and experience in accounting in detail. But briefly, I got my bachelor's degree in accounting three years ago, and since then I have been working at a small accounting firm.

I like my present job, but the opportunity to work in auditing for Kelsy & Alten would allow me to be more involved in that area. I've done some auditing at my present job, and it is what I enjoy the most.

Thank you for taking time to read my resume. At the end of this week, I will be in touch with you to answer any questions you may have about my qualifications for the position and to ask for an appointment to meet with you.

rail tracks.

The stations have high platforms without steps inside the trains so that there is almost no gap between the train and the platform. The platform screen doors are designed to protect the passengers from falling off the train. They also function to prevent the train from being late because of safety issues.

MRT is usually integrated with other public transportation to transport large numbers of people quickly. This ability is expected to help reduce the traffic congestion which is typical urban problem. <https://www.canva.com/learn/a-step-by-step-guide-to-designing-from-scratch/>

China's richest man celebrated his 50th birthday last week in the United States and expects his company will last twice as long. Revealing his ambition, Jack Ma says Alibaba will last 102 years, so the internet empire he founded in 1999 can span three centuries. Under Ma's maverick leadership, the 15 year old firm has already bridged a period of extraordinary changes in global trade and the Chinese economy.

His rags to riches journey is just as spectacular. A scrawny Ma, just over 5 feet tall, was rejected by KFC and other employers in his hometown of Hangzhou in East China. He believed in the internet's business potential when few other Chinese people did. Outlandish ideas earned him the nickname "Crazy Jack Ma". No one thinks he's mad now, even when dressing in wild wigs and lipstick for his annual meeting where he serenades a stadium full of Alibaba employees. Ma's readiness to make fun of himself and speak his mind, stands in contrast to China's often conservative corporate barons. Charismatic and energetic, this former teacher has become an inspiration to millions across China. He flunked math but loved English, and countless books and DVDs sell his business lessons in every airport lounge.

Jakarta (ANTARA) - President Joko Widodo has pressed for support for vaccine development in Indonesia in a bid to speed up the availability of vaccines as the COVID-19 pandemic ploughs on.

"Currently, the vaccines being developed in the country, include the Red and White vaccine and the Nusantara (Archipelago) Vaccine, which we need to continuously support," the head of state emphasized in Jakarta, Friday.

Widodo highlighted the significance of research and development in the areas of medications and vaccines to attain pharmaceutical independence in the wake of the ongoing pandemic.

"We must also accelerate the availability of vaccines amid the COVID-19 pandemic," he stressed.

The president underscored the importance of innovation as the key to the development of countries, including Indonesia, which necessitated promoting and supporting all innovations.

The Ministry of Research and Technology and Ministry of Health had earlier inked a memorandum of understanding (MoU) for cooperation on developing Indonesia's indigenous Red and White vaccine on March 4.

Research and Technology Minister and head of the National Research and Innovation Agency (BRIN) Bambang P. S. Brodjonegoro remarked that the MoUs were a form of collaboration for supporting the acceleration of the Red and White vaccine's development to help the nation achieve vaccine self-sufficiency.

Indonesia has commenced its vaccination campaign with the administration of China's Sinovac COVID-19 vaccine. The country also recently received over 1.1 million doses of AstraZeneca shots under the multilateral COVAX initiative.

Edit question

Read the instruction and answer the question.

1. Log in to your YouTube account.
  2. Click on the video icon at the top right hand side of the window, which can be found next to your user icon, messages, apps, and notifications.
  3. Click 'Upload Video.'
  4. Then, press 'select files to upload' to find the video file saved on your computer. Or, you can drag and drop it into the window.
  5. An optional step is to choose the privacy settings on your video (but more on that below). If you choose to stop after this, you will technically have achieved what this article is all about. Namely, your video will now be on YouTube. That said, it will be lacking a proper description and tags, which are crucial if you want your content to be found by the community of viewers. Also, if you don't change the name of your video, it will automatically be rocking the same file name as when you uploaded it from your computer. To avoid that (and to properly finalize the process), you'll need to fill out the following sections:
  6. Add an SEO friendly title so that it's more easily discoverable via search engines.
  7. Add a description of the video so people know what your content is about before watching it.
  8. Add tags, which act as tools to help the discovery of your video.
